**The Future of Family Property in Europe**

8-10 April 2010

The conference will feature contributions from academics and practitioners from several jurisdictions on some of the most hotly debated issue in family law in England and Wales, across Europe and beyond:

- **Ownership and division of property during and on the termination of marriage**
- **Agreements relating to matrimonial property and finances**
- **The unification of international family law**

In due course, a call for papers will also be issued to young researchers working in the areas of:

- **The protection of elderly persons,**
- **Freedom of testation and protection of family members**
- **Child support.**

The conference will provide a valuable forum for discussion amongst academics and practitioners from all jurisdictions, placing local debates regarding matrimonial and other family property law issues in a transnational, European context.
